

# QRCodeStudio Quick Start Guide

# Quick Start

# Data Management

# Data Table

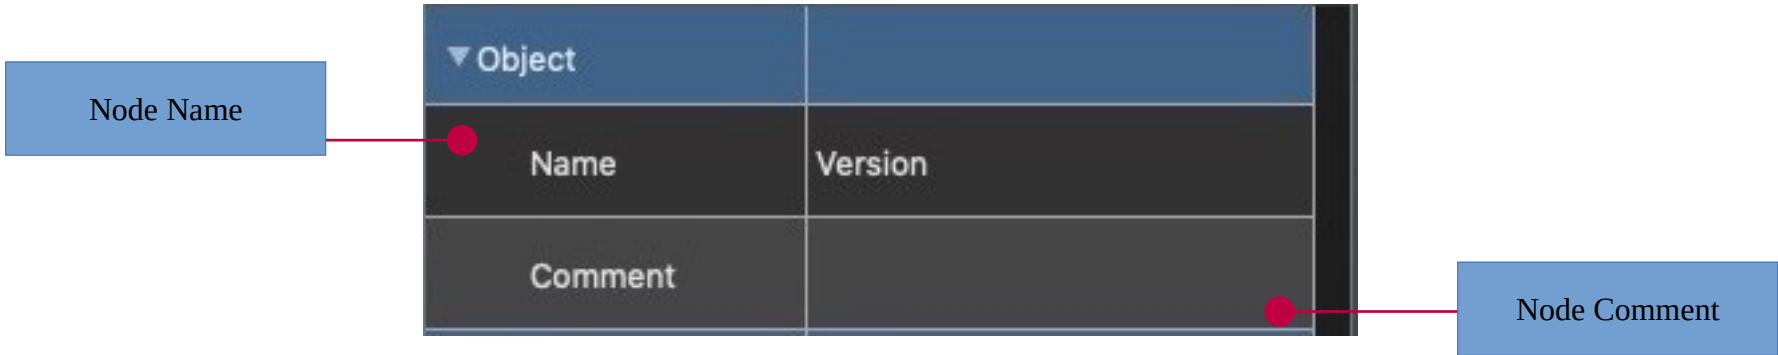

# Property Grid

The screenshot shows the 'PropertyGrid' window with the following components and callouts:

- Expand and Collapse:** Callout pointing to the expand/collapse icons (four arrows) in the top-left corner.
- Search Bar:** Callout pointing to the search input field with the placeholder text 'Keyword & Press Enter' in the top-right corner.
- Group Node:** Callout pointing to the 'Object' and 'Style' nodes, which are blue bars with a downward-pointing triangle on the left side.
- Data Node:** Callout pointing to the 'Comment' property value field.
- Description View:** Callout pointing to the 'Title' and 'description' fields at the bottom of the grid.

Property	Value

# Node Group

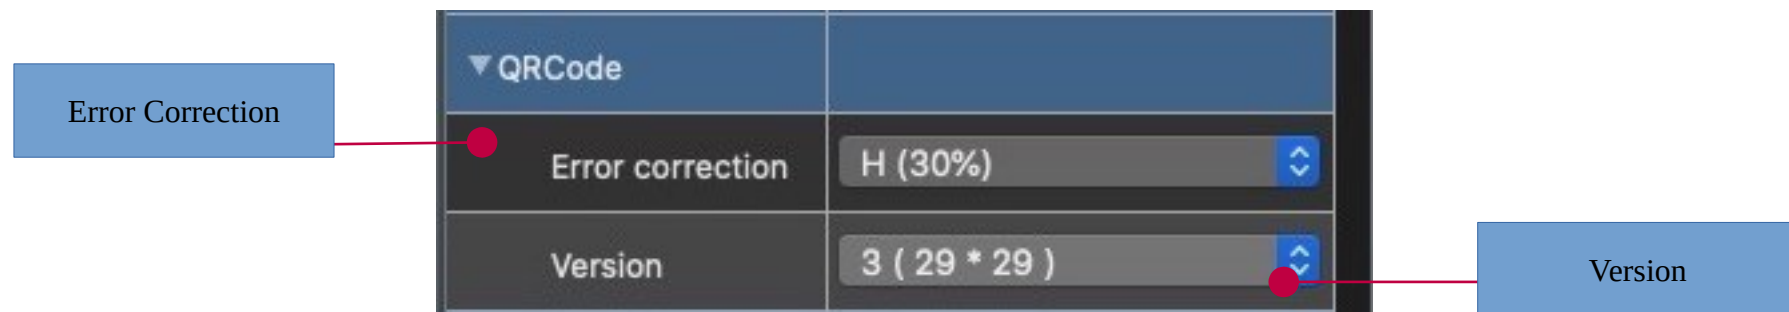

# Style Group

The image shows a screenshot of the 'Style' panel in QRCode Studio. The panel is titled 'Style' and contains four rows of settings. Each row has a label on the left, a visual representation of the setting, and a numerical value. Red circles and lines connect callout boxes to specific elements in the panel:

- Node Name:** A callout box on the left points to a red circle on the left edge of the 'ShapeType' row.
- ShapeType:** The 'ShapeType' row shows a dropdown menu with 'Circle' selected.
- Foreground Color:** A callout box on the right points to a red circle on the right edge of the 'Foreground Color' row.
- Background Color:** A callout box on the left points to a red circle on the left edge of the 'Background Color' row.

Property	Value
ShapeType	Circle
Foreground Color	0, 0, 0
Background Color	255, 255, 255

# Batch QRCode from CSV File

# How to generate QR codes in batch

Select Template

# Setup Export Style

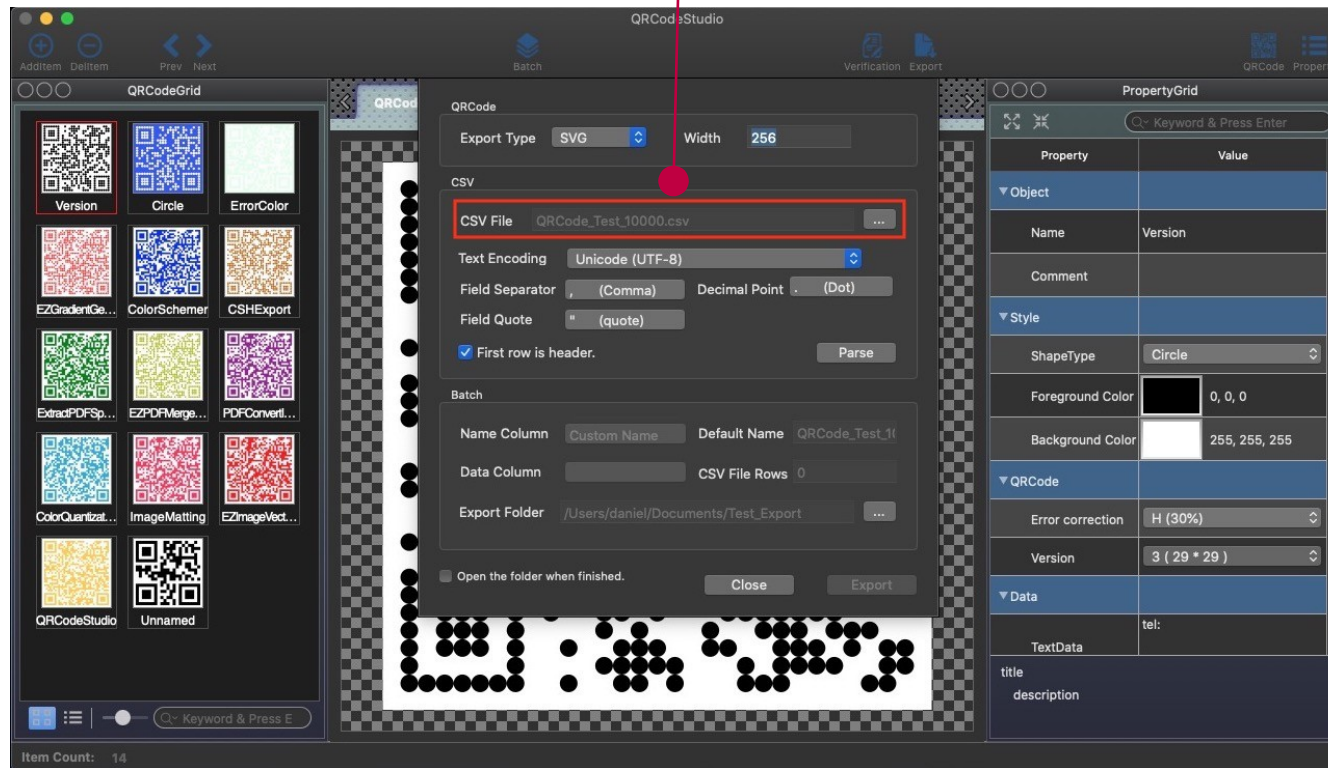

Export Style

The screenshot shows the QRCode Studio application interface. A central dialog box titled 'Batch' is open, with a red box highlighting the 'Export Type' (set to 'SVG') and 'Width' (set to '256') fields. The 'Batch' dialog also includes sections for 'CSV' (with options for file, encoding, and separators), 'Batch' (with options for name and data columns), and an 'Export Folder' field. The 'PropertyGrid' on the right shows various settings for the QR code, including 'ShapeType' (Circle), 'Foreground Color' (0, 0, 0), 'Background Color' (255, 255, 255), 'Error correction' (H (30%)), and 'Version' (3 (29 \* 29)).
